DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 4-6, 10 and 16-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Villoni et al. '180

In regard to claim 16, Villoni et al. discloses a fitting comprising:

a pipe end 20 entered on an axis and formed with a radial outward enlargement 18 having an axially inwardly directed face lying in a plane perpendicular to the axis;

an annular reinforcement 24 fitted in the enlargement, braced radially outwardly there against and having an axially outwardly directed front end face lying in a plane perpendicular to the axis and axially outward of the inwardly directed enlargement face;

a nut 22 bearing axially outwardly on the axially inwardly directed enlargement face 18; and

a connector 15 engaged by the nut 22 and pressed thereby axially inward against the axially outwardly directed reinforcement face.

In regard to claim 4, wherein the reinforcement is said reaction means comprise a cap having a flaring head 28 forming the outwardly directed reinforcement face and a cylindrical body 26 having at least one annular radially projecting rib 32.

In regard to claim 5, wherein the reinforcement has a first bend 28 extending radially.

Art Unit: 3679

In regard to claim 6, wherein has a second bend 26 extending parallel to the axis.

In regard to claim 10, wherein said cylindrical body of said cap comprises at least three ribs 32 engaged on the inner surface of said enlargement.

In regard to claim 17, wherein the nut and connector are formed with interengaging screw threads 15, 16.

Allowable Subject Matter

3. Claims 2-3, 7, 9 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claims 4-6, 10 and 16-17 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Behrens discloses a similar coupling common in the art.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David E. Bochna whose telephone number is (571) 272-7078.

The examiner can normally be reached on 8-5:30 Monday-Thursday and every other Friday.
